

Exclusive Northeast Certified Transmission Distributor

Fred Beans

POWERTRAIN SOLUTIONS

877-385-5769

Certified Transmission brings more than 45 years of experience in providing high-quality remanufactured transmissions, making them one of the most trusted names in the industry.

Why Certified Transmission?

Better. Stronger. Smarter Transmission Solutions.

Better-Than-New Performance

Certified Transmission's products aren't simply rebuilt - they are fully remanufactured using advanced engineering and upgraded components designed to meet or exceed OEM standards, delivering better-than-new performance.

Premium Components & Engineering Upgrades

Certified Transmission integrates upgraded parts and the latest engineering improvements to correct known OEM design weaknesses, resulting in a stronger, more dependable transmission built for the long haul.

Complete Multi-Point Remanufacturing Process

Each unit undergoes a total teardown, deep inspection, and precision reassembly. Critical wear items are replaced proactively, ensuring long-term reliability and durability beyond what a standard rebuilt unit can offer.

Nationwide Warranty Protection

Customers gain peace of mind with one of the strongest warranties in the transmission industry. A nationwide, 3-year 100,000 mile Parts and Labor warranty (exclusions may apply).
